MINING, BUSINESS AND STOCKS.

THE ALTERNATION OF THE PARTY OF

DECLINE IN UNCLE SAM CON

Sales Were Made as Low as \$1.97 on the Exchange.

TESORA ALSO MUCH WEAKER

Ajax Firm-Daly-West Softer-South Swansea Declining-May Day Not So Strong.

Business closed on the mining exchange this morning with the sale of 18,300 shares for \$30,719.75. The market was generally weaker. This tendency was very pronounced in the case of Uncle Sam, Tesora and South Swansea. Uncle Sam released about 5,000 shares at prices ranging from \$2.02 at the opening to \$1.97 at the close, Tesora declined to 91%, while South Swansea fell away to 48%. Ajax was very active between \$1.50 and \$1.47%, while Dexter sold at 87. May Day opened at \$1.63 and weakened to \$1.58, while Daly-West let go 200 at \$39.75 and \$39.50, Richmond Anacanda was traded in at 25, while Tetro was handed out at 22, Martha Washington sold at 2, and West Morning Glory hung around 61/2.

Closing quotations were posted as fol-

DESERET NEWS.

REPORT ON THE DEXTER MINES.

Supt. McKenzie Says Present Conditions Are Very Encouraging.

NEW STRIKE ON 250 LEVEL.

Dividend Day Temorrow-Visits the Humbug-South American Engineer Here.

Supt. McKenzle of the Dexter-Tuscarora Gold mines at Tuscarora, Nev., arrived in the city yesterday after an absence of several months. Mr. Mc-Kenzie says there is more ore in sight in the mines now than has ever been recorded before. The latest development at the mine is the tapping of the Tuscatora vein on the 250 level. This was done a few days before Mr. Mc-Kenzle left. The ore body had been entered a distance of 11 feet from the foot wall and a nice body of \$12 gold ore is said to be in sight. The management is cross-cutting to the hanging wall, where the highest values have heretofore been mined. Connection was made some time ago with the 150-foot level of the Tuscarora and it is said that the ore found there sweetened up the grade handled during July. Fron. the Tuscarcia vein the ore is conveyed about 1,400 feet to the Dexter shaft, where it is hoisted to the surface.

No special changes are reported in the Dexter property further than the discovery of a cross fissure about 580 feet southwesterly from the shaft. The vein is said to be large and to carry

good values.

At the mill good work is being done.

The company is operating only one of its electric plants, that on Jack Creek, eleven miles away. This has hereto-fore given all the "juice" needed. It the intention to start up the one on Niagata Creek owing to the shrink-again the water supply. The excessive heat causes a very heavy evaporation. For some time past the thermometer has registered 104 in the shade.

About 100 (this of ore is being daily

handled in the mill. In addition, Mr. McKenzie says the company is being very successful in its treatment of the slimes, about 25,000 tons of which are on hand. It is estimated that 35 per cent of the value of the ore is tied up in these slimes, which carry values of from \$3 to \$12 per ton. In the tests last month a saving of about \$4.25 was made on these slimes. This month, Mr. Mc-Kenzie says, the company will handle fully 1,200 tons. The cost of handling is about \$1,10 per ton, which leaves about \$3 per ton profit. The company will shortly market a car of rich sul-phurets, waich are believed to run about \$500 per ton in gold and silver.
Taken as a whole, Mr. McKenzle says
the mine looks better than it has for
two years past and he hopes dividends
are now in sight.

Dividend Day Tomorrow.

The Silver King of Park City will distribute its regular monthly dividend of \$100,000 tomorrow. This will be followed on the 15th by the Daly-West contribution of \$52,500. The Mammoth of Tintic is also expected to fall into line later in the month with a dividend

Interested in Utah Mines.

H. E. Lefevre, a mining engineer with several years' experience in South America, has reached the city from Colorado for the purpose of posting him-self on conditions in Utah's great camps. He is especially interested in the Golden Gate mill with its capacity of 1,200 tons per day, and will after ex-amining it take in the camps of Bingham. Tintie and Park City, Mr. Lefevre is interested in a big tract of mineral land in Honduras located about miles from the coast, which he intends short.

Sale of the Buckeye.

The report of James Sharp, receiver of the property of the Buckeye Mining company, was filed this morning. In the report it is stated that the notice of sale was advertised according to the court's order; that only one bid was re-ceived, that of J. A. Cunningham, of \$4,500. The receiver refused the bid be-lieving that a better offer can be ob-Receiver Sharp also had the mine

examined by Expert Rohlfing. The referee concludes his report by stating that the property will be sold immediately unless McCornick & Co. agrees to postpone their trustee sale He adds that in case the sale cannot be postponed or a satisfactory price obtained that he be authorized to make a loan on the property with which to redeem it so far as possible and that he also have the right to sell it at public or private sale

Visits Uncle Sam Con. S. N. King has returned from a visit to the Humbug and Uncle Sam pro-perty with which he was much im-pressed. In the Humbug, which be-longs to the Uncle Sam Con., the mangament is upraising on a fine body f silver ore assaying anywhere from 100 to 500 ounces per ton. The ore body is said to be about 4 feet wide. The upraise is several sets above the tunnel level. A fine showing is also reported in a winze from the tunnel level.

Uncle Sam Decline. It is stated that the decline in Un-Sam is partly due to the fact that everal investors are realizing on their Uncle Sam stock to take up Carlsa, which is selling around \$1.60 as compared with \$2 or thereabouts for Uncle Sam. At least two or three of the investors in Uncle Sam are known to have done this, considering that when it comes to paying dividends the Cari-

sa will not take second place.
The supplementary report to be made on the second class ores of the Spy is not completed. However, there is said to be no doubt that they can be treated profitably at the Bingham smelter.

Ore Mined and Milled for 58 cents The world's record for cheap milling of gold ore is held by the Spanish mine, near Washington, Nevuda county Cal. eays the American Mining News, Durng one month of the year 1899 it mills 143 tons of ore at a cost for labor, 143 cents: supplies, 10.6 cents: total, 12.9 cents per ton. At the same place mining costs 34.6 cents per ton. Total mining and milling costs 58.5 cents.

THE CONTROL OF THE PROPERTY OF on for milling and \$1.12 for mining,

total, \$1.47. It is stated on reliable authority that a stamp mill just below Rochford, South Dakota, mined, milled and made a profit on ore running slightly less than \$1 per ton. The Stickels mill in California, also runs at a very slight expense. At this latter place the duty of the stamps is exceptionally high, five tons of rock crushed per stamp per twenty-four hours. The record of this mill nearly equals the Spanish mine.

MINING NOTES.

The Albion of Alta had a car of ore on the market today. The Uncle Sam of Tintic had four cars of ore on the market today.

Seven cars of concentrates reached the market today from the Ophir Hill. Superintendent Williams of the Century of Park Valley has gone East for a few weeks.

S. N. King says the Dalton of Marysvale has a good showing in the No. 3 incline and also in the face of the lower tunnel.

The Taylor-Brunton sampler re-ported four cars of ore from Tintic seven from Stockton and one from Al-

F. H. Lathrop left for Stateline today to discharge the July payroll of the Ophir Mining company. The company is employing about 100 men. Manager W. G. Filer of the Annie Laurie mines on Gold Mountain has returned from Chicago. He will be followed in a few days by Messrs. Kimberly and Snyder, who are said to have something important to release

have something important to release in the near future. James Long, Jr., has bonded the June Bug group of four claims ad-joining the Miller mine on Gold Mountain. Some good ore has been found at different points in the property and Mr. Long expects to sink a deep shaft and explore the vein before the final

payment becomes due on year hence. It was stated today that the Ben Butler injunction would be withdrawn as the owners of the Liberal claim are satisfied that no ore has been extracted from their claim. They are now in a position to know about where to look for ore in the Liberal since the examination of the property by their expert.

NECLECTED BUT STEADY.

United States Steel Played the Role of Wall Flower on the Stock Market.

Some of the Railroads Made Gains but Lost Them Before the Close -Other Securities.

New York, Aug. 9.-Trading showed general steadiness at the outset and an improving tendency was noted for the leading stocks. Fluctuations, however, were narrow and business quiet. The steel stocks were dull but showed gains of % and % respectively for the common and preferred. A temporary check was given to the rise in the market by a setback in Sugar and United States Steel. Large buying orders then appeared on southwestern stocks and they advanced strongly, led by Missouri Pacific and Texas Pacific, which made gains of 17%@2% respectively. The rise in the Gould group was based on rumors of control of Mexican railroads. Other railroad stocks were soon bene fitted by this movement and St. Paul. Atchison, Union Pacific and less promnent stocks developed marked strength. The United States Steel stocks continued quiet and were not very well supported, the common losing all of its opening advance, and the preferred about half. The entire market was off from the highest at 11 o'clock. Prices of the active stocks declined slowly, the losses reaching a point in Brooklyn Transit, St. Paul and some of the southwesterns and Pacifics. The steel stocks were sustained a trifle above yesterday's close. The junior Vanderbilt stocks were strengthened by a large demand for the New York, Chicago & St. Louis common and second preferred, which rose 21/2 and 31/4 respectively.

Bonds were quiet and firmer. Specialties were virtually at a standstill and but few stocks varied more

than a point. Buyers were reluctant at the offerings at prevailing prices and concessions were made. Union Pacific, Atchison, St. Paul and Missouri Pacific lost their earlier advances. The United States Steel stocks were neglected but fairly steady.

BADGES OF HONOR!

Next time you go East via Denver and the Burlington Route, pay particular attention to the sleeping car porters. You will find that on the coat sleeves of most of them are one, two, three or four bars of silver lace. Each bar

stands for five years of service. The badge is reassuring. It means that its wearer is honest, civil, and obliging. If he were not, do you suppose he could have held his position as long as he has?
